For immediate release:

January 4, 2021

The Sidney-Shelby County Health Department is following the Ohio Department of Health and CDC guidelines for distribution of COVID vaccine. The Ohio Department of Health will coordinate vaccinations in four phases beginning with health care workers and ending with the general public.

How quickly we can vaccinate in those phases will depend on how much vaccine we get and how the categories are opened up by the State of Ohio for distribution. Currently, only those in phase 1A are being vaccinated.

Phase 1A includes:

- EMS (EMTs/ Paramedics)
- Congregate Care Facility Staff & Congregate Facility Residents
- High Risk healthcare workers (examples include):
 - Long term care facilities
 - Home health/ hospice workers
 - Primary care practitioners, including family medicine, and general medicine providers
 - Urgent care
 - Pharmacies, and dialysis centers
 - Dental Care providers

Phase 1B includes:

- 65 years of age and older
- Those living with severe congenital, developmental, or early onset medical disorders

If staff within your organization is included in Phase 1A and is interested in receiving the COVID-19 vaccination when it becomes available, please sign-up your organization to receive notifications using the following link (only one sign-up is needed per organization):

<https://www.signupgenius.com/go/8050949AAAC23AAFD0-covid191>

If you or your loved ones are located in Phase 1B and you are interested in receiving notifications regarding vaccine availability, use the following link:

<https://www.signupgenius.com/go/8050949aaac23aafd0-covid>

Please note the Sidney-Shelby County Health Department is receiving very small quantities of vaccine at this time; therefore, we are not setting up large clinics at this time and opting to do smaller clinics. Information regarding these smaller clinics will be distributed via the above sign-ups.
